This document consists of carbon copies of 24 typewritten pages in Russian and of typewritten copies of 17 pages in German. The German section of the report is a translation of portions of the Russian. The report contains the following lists and reports:

a) List showing the planned production of the SAG(Soviet Corporation) "Kabel" for the fourth quarter of 1951. Figures are given under the following headings: a) consecutive number; b) name of product (and, in some cases, dimensions), and name of the individual plant of the SAG "Kabel" at which the production is scheduled; c) unit of quantity; d) quantity produced in the third quarter of 1951; e) cost of production in the third quarter of 1951, according to the confirmed sales price; f) quantity scheduled for production in the fourth quarter of 1951; g) planned cost of production in the fourth quarter of 1951, according to the confirmed sales price. Totals for all plants are given for (e) and (g). There is a complete German translation of this list.

b) List of the stocks of the individual plants of the SAG "Kabel", and an enclosure to the list. The enclosure gives reasons for the poor marketability of goods stored for an excessive period of time, and also contains the list headings, remarks, and footnotes. The German section is a translation of the enclosure only.

c) List of the stocks of finished products in the warehouses of the SAG "Kabel" in September 1951, and a cover sheet to the list. The cover sheet contains comments and list headings as described under (b). The German section is a translation of the cover sheet only.

d) Cover sheet and a summary of the fulfillment of the September 1951 production plan by the individual plants of the SAG "Kabel". The cover sheet contains list headings and comments as described under (b). The German section is a translation of the cover sheet only.
